Tamara

GGI German Genetics International

represents nine leading German cattle breeding organizations in the global market for cattle genetics. Everyone in the world has the opportunity through GGI, to access the complete range of German cattle genetics and through this can achieve their individual breeding objectives. For almost 20 years, GGI has been an established name for the international trade of top German genetics. Semen exports to more than 70 countries worldwide, through our international agencies, make GGI a central contact point for semen enquiries and breeding projects from all continents.

Do not hesitate to contact us!
